023725-00001	1	Bayer: 1 H-A: elderly lady called a PCO about staining on premises after an crack & crevasse interior treatment. She made off-hand remarks about feeling nauseated and light-headed, but her main concern was the staining. Five days later the PCO called back and learned the lady had died. No further details are known and no evidence of direct exposure to the product prior to her death. 024458-00002	2	Email: lady lives across street from school in WA where they spray every month, but hasn't been able to live in the house (in WA?) for 3-4 years. She smells and tastes chemicals and in AZ runs air cleaner 24/7. and has an oxygen machine nearby. She feels chemicals have affected her memory, speech, muscles and nerves. After first exposure felt deathly sick for 3 days with face & lips numb, became shaky, felt faint and noticed white pesticide powder outside nearby. May have seized. On earlier exposure held puppy treated with Advantage and she became shaky.	N		01/01/2008			WA	US	HC	129099	Imidacloprid		ADVANTAGE FLEA DROPS (DOGS)

025013-00001	1	In Mar. 2013 increasing numbers of dead bees seen in Polk Co., FL at entrance to hives in citrus groves. Empty containers of imidacloprid have been found on burn piles in the vicinity. Some colonies are missing a brood cycle. Colony strength in affected colonies is continuing to decline. Some bees shaking. Adults & pupas dead at colony entrances. Beekeeper used apivar (amitraz) for mite control and believes mites are not an issue.	N		03/04/2013	NEAR FROSTP ROOF	POLK	FL	US	ON	129099	Imidacloprid		IMIDACLOPR ID	
025019-00001	1	Beekeeper reports bee kill near Frostproof, FL. 400 colonies affected. Piles of dead bees are at the colony entrances. 25-40% losses of field force minimally. Orchards are already in bloom. Complainant was notified that orange orchards were going to be sprayed. Colonies farther away from imidacloprid treated groves are not adversely affected. Neither mites nor Nosema have been recent issues.	N		03/21/2013	NEAR FROSTP ROOF	POLK	FL	US	ON	129099	Imidacloprid	083100-00007	MONTANA 2F	ROTAM AGROCHEMICAL COMPANY

025023-00001	1	Commercial beekeeper near Frostproof, FL reported unusual number of dead bees. Colonies near orange groves. Each of 80 colonies has had adult bee population reduced by 60% leaving only hive bees. Queens are still laying, so owner expects colonies to recover. Loss of forage bees will prevent production of honey crop. Complainant believes adjacent grower has been careful but others may not have been. Other losses have been attributed to Montana Insecticide. Apiary inspector agreed that losses appeared to be due to pesticide poisoning. 026391-00001	1	Bayer: update to I026391: 10 beekeepers in the Hitdorf and Rheindorf districts of Leverkusen reported bee kills for a total of 43 colonies affected. Bayer also observed some but less severe losses at its research bee hives nearby in Monheim. Clothianidin was detected at higher levels than imidacloprid in dead bee corpses. Bayer says evidence suggests off-label use in flowering rapeseed. Only 1 clothianidin spray product is registered in Germany and it is not marketed by Bayer. Incident is under investigation. Bayer does not believe it could be related to the Bayer Poncho-Beta pelleted formulation used for sugar beets. 032224-00001	1	Region 9: On June 18, 2019, Merced County Agricultural Commissioner's (CAC) staff was notified by a beekeeper that he had a significant bee loss at two different bee drop locations. The bee keeper believes to have 36,000 dollars of loss to his bee hives. One of the bee drop locations is between cotton fields and the other bee drop is by the San Joaquin river and surrounded by alfalfa fields and herb fields. The Merced CAC staff will be taking swab and bee samples.	N	U.S. EPA, REGION 9	06/18/2019	LOS BANOS		CA	US	ON	129099	Imidacloprid		LEVERAGE	BAYER CROPS SCIENCE LP

034187-00001	1	RD: a two year old dog was provided by my veterinarian with the small dog Seresto Flea and Tick collar on March 27, 2021. I have never used or experienced this product prior. From March to May I personally experienced various symptoms to name a few: headaches, pain in head, other parts of body, inflammation, numbness in hands. The dogs behavior also improved and did not express lethargy or tiredness and his energy levels increased.	N	U.S. EPA, OPP, RD	03/27/2021				US	DD, HC	129099	Imidacloprid	011556-00155	SERESTO DOG (UNSPECIFIED)	ELANCO US INC.
034217-00001	1	RD: Put on 5/30/21 - for the past 2 weeks dog has been tired when going for normal walks, sometimes refuses to move, has to rest or be picked up. In the past 10 days or so he has lost significant fur all over his body - his sides are no longer black, as most has fallen off and is now lighter in color; the white spot on his check is showing his pink skin.
